

## Monthly Report for:

OCTOBER 2016

This month we have been busy getting winter sand done. We worked with Corinna highway to help haul sand and it worked out great. We have been getting plow trucks ready. I helped Mike on his building, worked on airport loader. Our loader broke down during winter sand so we use Gordan Whites loader for a couple rounds until we got ours fixed. So thanks to Gordan White for use of it. We are still making gravel and hope to fix a few more roads.

respectfully submitted,
