

## Monthly Report for:

**SEPTEMBER 2016**

This month we have been busy building the nelson and charelston rd. Pulled ditches on those roads also. We have been putting out gravel faster than we can make it. Our new man started this month his name is Gordan Smith. He has been busy fixing the mack that we lost the rearend in. He fits in well with the rest of the guys and a really good worker.

respectfully submitted,
