

## CEO Report

August 5, 2016

I have issued 33 Land use permits to date, the count last year was 25 to this date (Jan through July) we are ahead of last year. I have issued 28 Plumbing permits. The burned building on Water Street is cleaned up and gone I'm happy to say.

There is an issue with a Land Lord on Zions Hill, and it looks like it is going to go to court, the owner does not want to comply, I will keep you informed. I had an issue with a goat on Dexter Street, the goat is happy but the tenant isn't. There was an issue with a fence being installed to close to the road on the corner of Forest and Maple. Again the tenant isn't happy but will comply with the setbacks. We had the second Planning board meeting this year, and a 12x15 bedroom addition was approved. I have received a number of calls for the assessor, I have helped where I could and left notes for Jackie when I couldn't.

Respectfully submitted,

Al Tempesta
