

CEO Report

February 2017

Last month was a slow month for building but a busy month for inspections. There are still a few problems with the ice shacks but those have been taken care of. There have been a few inquiries from commercial businesses that are interested in buying or setting up shop in Town. I have been on 3 restaurant inspections with Jen Springer (she is from DHHS) . Everything was good. Apartment inspections are going well. I took a class on the new 2015 Plumbing rules, and septic system rules. The State is a little behind on adopting new rules. I'm putting on a class in Newport on Erosion Control for all local contractors the 22 of this month, this is a must have class if they are doing work in the shore land zone. If there are any questions please feel free to call me.

Respectfully submitted,

Al Tempesta
