

CEO Report

May 31, 2016

I've done 20 building permits and 15 plumbing permits to date. The problems that I had last month are gone and new ones have sprung up. The summer folks have come up and on the lake everyone has questions. How many trees can I cut down and why can't I have a deck on the lake. The Utility District project went well with no complaints.

I have received only one reply on my unsafe building notices that I sent out. That was on Water Street, I've met with the insurance company adjuster and I hope the next meeting will be with the owner on setting a date to clean it up. I have had a complaint of water coming out a bank on to a back yard on Free street, I've been there with Eric and it doesn't seem to be a Town problem. I've had a discussion with a land lord on Zions Hill about trash and debris build up on his lot and he is working on it.

I have had a number of complaints, already, on property owners not mowing their lawns. Sometimes a kind word solves the problem.

Respectfully submitted,

Al Tempesta
