

CEO Report

October 25, 2016

I have issued 46 Land use permits to date. I have issued 30 plumbing permits. I have been doing a number of apartment inspections. The issue with a apartment rental on Zions Hill road has been half taken care of as one house is now completely empty and the 2cd house is being brought up to code. I have had a few abandoned car/junkyard complaints and letters have been sent out. I have had a couple of complaints about a dog being in a restaurant, dining room area, I have passed those on to DHHS. I will be checking this week and next to make sure all earth work has been completed and areas are secure and mulched over.

Respectfully submitted,

Al Tempesta
