

FACILITIES REPORT

- **Roof Systems of Maine replaced the roof on the Morrison building.**
- **Have still been working on the new facilities garage. The sides are up and the roof is almost done.**
- **Since it is starting to get cold we worked on the furnaces to get them ready.**
- **Put some of the picnic tables and trash barrels away for the winter.**
- **Winterized the bath house at the beach.**
- **The boat dock got damaged. It was \$150 to weld but we had some of the other parts that were needed to fix it.**
- **Worked on the facilities trailer, welding, painting, and put on a new brake box.**

Respectfully submitted,

Mike Gudroe
