

Monthly Report for.

FEBRUARY 2018

This month we had a few snow storm and a couple ice storms. We made a sander for building maint. tractor so they could sand the sidewalks. We are in the process of building him a plow and making a broom for his tractor. We service couple of the cruisers for the pd. We mounted the new sander in the mack and hauled 500 yards of winter sand to the garage. We hauled snow off spring street and cut ice and been dealing with muddy road all ready.

respectfully submitted,
