

Monthly Report for.

MARCH 2018

This month we had several big snow storms. We finished building mike broom for his tractor and made a plow for it to. We have been busy getting brooms ready to start sweeping. We pulled apart the grader tandems and fix the vibration we had and pulled the wing off the grader. We worked on a couple of the police cruisers and fixed mikes pickup. We cleaned a bunch of basins and picked up some of the mess from plowing.

respectfully submitted,
