

Monthly Report for.

AUGUST 2018

We finished the fern road. We use 2700 feet of fabric, 1550 yards of bank run gravel, 1200 yards of screened gravel, 540 yards of rock. It took two days with a Paradis excavator and hammer to break up the ledge. We ditched both sides, cut trees and put in 2 driveway culverts and one cross culvert. We built a 24 foot retaining wall behind the town office. Came in early to clean down town for red hotdog festival. The beaver plugged the culverts on Goff rd and Dover cutoff had to use backhoe to clean them out. Cut brush on Free and Liberty and Free and Winter. Sent the cycle off the grader to be fixed. We ditched Prospect from Lakeview to Park street and replaced several culverts. Worked on a couple police cruisers and pushed fill off at the cemetery several times. Replaced 3 culverts on Maple and did some ditching

respectfully submitted,

A handwritten signature in black ink, appearing to read "A. Cuyler".
