

OCTOBER FACILITIES REPORT

- **Brought all 14 picnic tables to the Town Hall for fixing, sanding, and polyurethaning. Thank you to the cemetery crew for their help.**
- **Loney welded and fixed the gate on our trailer.**
- **Started all the furnaces to get them ready for winter.**
- **A tractor trailer hit the railing at the Town Hall. It was covered by insurance and Jason Langlais put it back together.**
- **Sebec Fencing put a new backstop at the Bud Ellms baseball field.**
- **Morris Fire Protection came and did our annual fire extinguisher training. Employees from facilities, highway, cemetery, the library, and the Town Office were in attendance. A big thank you to Chris Webber for doing the class for free. It saved us \$200.**
- **Morris Fire also did our annual fire extinguisher inspections.**
- **We have done a lot of maintenance on our vehicles this month. The truck had oil and filter change, winter tires put on, a ball joint replaced, new air filters, and**

was greased. The tractor had an oil change, was greased and the winter attachments were put on.

- **We tore down the old hut at the ice rink and Chuck Ellms leveled the ground. Eric, Loney, and I put the forms up and put them to grade, laid insulation, put rebar down, and tied it up. We also helped pour the cement.**
- **We pressure washed the wall around the ice rink to get it ready to paint.**

Respectfully submitted,

Mike Gudroe
