

RECREATION DEPARTMENT OCTOBER 2018

- Another season of fall sports has finished but not without issues. The football team only had 14 kids suited for games and they were unjustly accused of playing kids that were too old or were over weight. One team had to forfeit a game in the third quarter for no apparent reason after parents traveled two hours to get to the game. Rest assured we will not be going back!
- On a brighter note, the soccer season went over without a hitch.
- The field hockey teams had a very successful fall as the older kids went unbeaten and the middle school team which is very young has a very bright future.
- Roller skating numbers have been very good for this early in the season.
- Plans are moving forward for the construction of our new ice skating hut. The old hut has been destroyed and the new concrete has been poured and is ready to go. Thanks to all who have and will donate their time to help make this a successful adventure.
- We hosted a Recreation Director's meeting here on October 18th to discuss the upcoming basketball season and start updates and any rule changes.
- Have collected and washed most of the fall uniforms and taken down the soccer goals at Ellms Field. Mike Gudroe has taken down the tennis nets as well.
- Basketball and cheering sign ups are scheduled for next week so away we go—bring on old man winter.

Respectfully submitted,
Mike Martin
Recreation Director
