

RECREATION DEPARTMENT

SEPTEMBER 2018

- All the fall programs are moving forward without many issues although football has had its share of problems from opposing coaches complaining about a couple of our kids being a tad over the weight limit, which they were not.
- Another Family Fun Day is in the books with games, face painting, and pumpkin painting among some of the things the children enjoyed along with a variety of refreshments. The day started off with the third annual 5K walk/run held in front of Dexter Regional High School with some 20 runners having at it first thing in the morning.
- Saturday afternoon roller skating has resumed with a couple of very good crowds to start.
- Have had to referee a number of Recreation soccer games as finding officials is an on-going issue.
- Our annual senior citizen's trip to Greenville to take a cruise on Moosehead Lake had to be postponed due to high winds on the lake and has been rescheduled for a later date.
- Moving forward - basketball sign-ups and old man winter are just around the corner.

Respectfully submitted,

Mike Martin
