

# MARCH FACILITIES REPORT

- Plowed and shoveled a couple of small storms, hopefully we are done for the year.
- Started working on the Town Hall kitchen. Put in a couple of new walls, fixed up the ones we could, put stud backers in for cabinets, and put up new sheetrock. Also started working in the gym putting up a new backboard. Have to reconstruct the old one to fit the new one.
- Baseball and Tennis will be starting soon at Bud Ellm's field. Eric moved snow from the road and parking lot and did a great job. I took the facilities tractor up and cleared the entryways to the court and fields.
- Did routine maintenance, cleaning, and fixing broken things.

Respectfully submitted,

Mike Gudroe
